Title 28 EDUCATION

Part XCI. Bulletin 1922—Compliance Monitoring Procedures

Chapter 1. Overview

§101. Monitoring

A. Monitoring is a process to ensure a free, appropriate, public education for all children with disabilities and to assess and ensure program effectiveness for all children with disabilities in public schools. This includes students with disabilities, ages 3-21.

B. The monitoring system for Louisiana, through the analysis of various quantitative and qualitative data, will focus state resources on improving educational program outcomes for students with disabilities through a comprehensive, data-based process. Annually, the Louisiana Department of Education (LDE) will select a list of specific variables and performance indicators for comparative purposes for all local educational agencies providing services to children with disabilities. This list is may be a combination of federally-required indicators, state performance indicators or goal areas.

C. The quantitative data will be used to determine specific performance profiles for local educational agencies (LEAs) using data relative to a set of variables referenced in 101B. Performance profiles will be issued annually. The quantitative data will be collected in relation to a set of variables selected by a statewide group of stakeholders from various agencies and entities called the Continuous Improvement Monitoring Process (CIMP) Steering Committee. This group will meet at least annually with the Louisiana Department of Education (LDE) to select only specific indicators that will be used to determine a LEA's performance status.

D. LEAs will be placed in one of two performance categories within one of four population groups based on the total population of students attending public schools. Upon validation of quantitative data, LEAs will be notified of their performance status. The performance categories are focus and continuous improvement.

1. LEAs designated as focus will receive an on-site compliance monitoring visit in order to review qualitative data specific to selected qualitative indicators that focus on the LEA's lowest performing indicator areas. Additional data may be reviewed prior to and during the on-site visit.

2. The LEAs designated as continuous improvement will not be targeted to receive an on-site compliance visit. Some districts may be required to develop a corrective action plan because of triggers within the data that signify concerns such as when the performance of students with disabilities is disproportionately below the state average in any of the required performance indicators. These

performance indicators include, but are not limited to suspension, diploma, dropout, and state-wide assessment rates.

3. When critical issues of noncompliance are identified by means other than the performance profiles (including, but not limited to complaint logs, evaluation extension requests, and financial risk assessments), a targeted on-site compliance monitoring visit of the LEA may be required by the LDE.

E. Embodied in this process are proactive measures of self-evaluation, support, and technical assistance to ensure compliance with all regulatory requirements at the federal and state levels. Findings from data analysis, as well as findings from the on-site compliance visit, will be used to determine and allocate various resources for technical assistance and support to the LEA by the LDE.

§105. Local Educational Agencies (LEAs)

A. Local Educational Agencies (LEAs) to be monitored are:

1. city or parish school systems;
2. special school district;

3. state board of elementary and secondary special schools;
4. Type 2 and 5 Charter Schools; and
5. University Laboratory Schools not under the administration of a school district.

HISTORICAL NOTE: Promulgated by the State Board of Elementary and Secondary Education, LR 30:415 (March 2004), amended LR 31:3105 (December 2005).

§107. Corrective Action and Sanctions

A. The LDE has the responsibility to monitor all public educational agencies with programs for children with disabilities within the state for compliance with applicable state and federal laws, regulations, and standards.

B. The LDE is authorized to take actions, consistent with applicable law, necessary to ensure compliance. Failure on the part of a participating agency to comply may result in the LDE, with the approval of its governing authority, the Board of Elementary and Secondary Education, withholding funds from the said agency. Prior to withholding any funds under this Section, the LDE shall provide reasonable notice and an opportunity for a hearing conducted by the State Board of Elementary and Secondary Education (BESE) to the LEA involved.

C. LDE determines the need for a corrective action plan (CAP) to address findings of non-compliance on an individual LEA case-by-case basis. If the LDE requires a CAP, it will be developed in collaboration with the LDE following the LEA's receipt of the LDE's monitoring report. The CAP shall be submitted for approval to the LDE within 35 business days of receipt of the monitoring report for However, upon receipt of the report, the LEA shall immediately begin correcting the findings of non-compliance documented in the report. The plan will address the activities the LEA will implement to correct the areas of non-compliance identified during the on-site visit. as soon as possible, but in no case more than one year from the date of the notification report from the LDE.

D. The progress toward completing the activities in the plan will be tracked by the LDE to determine if the timelines are being met. LEAs will submit evidence and data as requested by the LDE to show completion of activities and evidence of change in the LEA as a result of the corrective action plan. Based on a review of submitted evidence, the LDE will decide whether the LEA has met compliance requirements or determine whether a follow-up, on-site visit must be conducted to determine if the LEA has made systemic changes to correct the noncompliance addressed in the corrective action plan.

E. A written report of the findings from a review of the submitted evidence or from a follow-up visit will be issued to the LEA by the LDE within 30 business days of the review of the evidence or the on-site visit.

F. When continuing non-compliance is identified, the LDOE will require that an Intensive Corrective Action Plan (ICAP) be developed by the LEA in collaboration with the department, to address the continuing noncompliance. In conjunction with the implementation of the approved plan, the department will impose one or more of the following sanctions described below.

1. Advise the LEA of available sources of technical assistance that may help the LEA.

2. Direct the LEA to present the ICAP to the local school board for approval.

3. Direct the LEA to use IDEA Part B flow-through funds on the area or areas that the LEA is non-compliant. The LEA will submit evidence to the department of the specific funds targeted for areas of non-compliance. The department will monitor the expenditure of such funds on a consistent basis.

4. The LDE may determine that a special consultant or management team is necessary to assist the LEA in addressing areas of non-compliance. The LDE will select a special consultant or management team to collaborate with the LEA in developing and implementing an intensive corrective action plan. The special consultant and the ICAP activities must be approved by the local board and will be funded at the local level.

5. Identify the LEA as a high-risk grantee and impose special conditions on the LEA's IDEA Part B grant. The department will impose one or more of the following special conditions.

- a. For each year of continuing non-compliance, withhold not less than 20 percent and not more than 50 percent of the LEA's IDEA Part B grant until the department determines the LEA has sufficiently addressed the areas in which the LEA needs intervention.

- b. Seek to recover funds under section 452 of the General Education Provisions Act.

- c. Withhold, in whole or in part, any further payments to the LEA under this part pursuant to Subparagraph a.

- d. Refer the matter for other appropriate enforcement action.

§109. Components of the Continuous Improvement Monitoring Process

A. The monitoring system will be implemented as a process that includes various components. This process will be comprehensive and continuous to include the use of various data sources. The monitoring system will be an

ongoing process through the use of different components, rather than a cyclical process occurring on a scheduled basis.

B. The monitoring system may incorporate and utilize strategies and components as listed below.

1. Analyze current data elements and databases that are captured by the LDE and are directly related to student outcomes.

2. Analyze the LEA grant application to track and monitor the allocation and use of Part B funds targeted to address priorities revealed through previous data sources in the monitoring process, as well as policy and procedural assurances.

3. Review complaint management logs regarding specific complaints in individual LEA.

4. Analyze Extended School Year Program data.

5. Analyze district and school accountability profiles.

6. Analyze FAPE tables and other mandated federal data reporting (i.e., e.g. personnel tables, child count data).

To fulfill this responsibility, the LDE has established a purpose for conducting monitoring, as well as procedures and strategies that provide ongoing monitoring activities. The procedures provide continuous and comprehensive monitoring of all aspects of special education including the following:

1. child identification;
2. demographic and disproportionality issues;
3. screening, intervention, referral, and evaluation process;
4. program, services, and placement implementation for students with disabilities three through twenty-one years of age; including transition from Part C by the child's third birthday;
5. professional development; and

6. fiscal requirements relative to programmatic issues of local educational agencies.

B. In Louisiana, the purpose of compliance monitoring is three fold:

1. to enforce legal requirements;
2. to ensure program effectiveness; and
3. to ensure corrective action, when needed, has been taken.

C. The information obtained as a result of the monitoring process will be utilized in the following ways:

1. to improve outcomes for all children with disabilities;
2. to direct initiatives statewide; and
3. to direct statewide personnel development.

1. correct each individual case of noncompliance
2. correctly implement the specific regulatory requirement

F. Timelines must be developed that are specific to the corrective action required and to the issues of noncompliance. The LEA must return the report to the LDE in hard copy and electronically. The timeline must indicate how the findings will be corrected as soon as possible, but in no case more than one year from identification by the LDE.

The LDE will conduct, when necessary, an on-site visit in the year following the initial on-site visit, or sooner if deemed necessary by the LDE, to validate the documentation of the implementation of the corrective action and to validate systemic change of areas of non-compliance. Validation of correction requires verification that the LEA has corrected each individual case of noncompliance and the LEA is correctly implementing the specific regulatory requirement.

E. The LDE will notify the LEA in writing when all corrective action has been accepted as completed.
