

ABNER

Community Partners

Families Helping Families is an invaluable community partner. New Orleans Children's Health Project and Crescent Care Legal Services have seen firsthand how Laura Nata provides unparalleled assistance to students with disabilities and their families. Laura is knowledgeable about the resources available in the community and helps our Spanish-speaking families navigate through unfamiliar systems.

Laura listens to families' concerns and provides them with all options available to their children. She assisted my 16-year-old client, Abner, who had struggled to attend school on a regular basis due to a chronic medical condition.

Once he was stabilized, Laura reached out to his healthcare providers, school administrators, and the Special Education Coordinator to coordinate services. I was thrilled when I received a text from Abner's mother stating he was finally enrolled and enjoys school. None of that would have been possible without Laura Nata and Families Helping Families.

- Laurel Sheridan, Immigration Attorney, Crescent Care Legal Services
