

BOARD OF DIRECTORS Q & A

Are you a good fit to be on the FHF of GNO Board of Directors?

Families Helping Families of Greater New Orleans (FHFofGNO) is a family resource center for families of individuals with disabilities or special healthcare needs and youth and adults with disabilities and special healthcare needs. Founded in 1991 by parents of children with disabilities, FHFofGNO has focused on supporting and mentoring families while they navigate the often complicated disability services delivery system.

FHFofGNO was founded on the belief that:

- Children with disabilities, regardless of the severity, need their families and family relationships to develop to their fullest potential; and
- Adults with disabilities should be allowed to make decisions for themselves and live in typical homes and communities where they can exercise their full rights and responsibilities as citizens.

What does the Board of Directors Do?

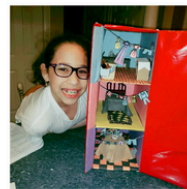

FHFofGNO's Board of Directors is made of volunteers who share their expertise, influence, knowledge, lived experiences, and resources to create long-term sustainability for the organization. Board members come from a wide range of personal and professional backgrounds. The Board is responsible for governance, not day-to-day activities. Their primary duties are to steer the organization towards a sustainable future by adopting sound, ethical, legal governance and financial management policies and ensuring it has adequate resources to advance its mission.

- Board members are passionate advocates, champions of our cause, and stewards of our mission.
- Board members make FHFofGNO one of their philanthropic priorities and leverage connections and networks to bring additional resources to the organization.
- Board members are our number one ambassadors.

OUR SUCCESS

Empowered, energized & in control of my daughters education

"I never felt so empowered, energized, and in control of my daughter's education until I received support on how to effectively advocate for her through FHF of GNO."

I regained the confidence to advocate for my son!

With the support and guidance from Families Helping Families, our family has made more strides with my son's school in the past 5 months than we have in the last 5 years.

I got the necessary tools for my nephew and my son to succeed.

"FHF listened to my concerns and questions but also took the time to understand the nuances of our situation, offering invaluable insights and unwavering support every step of the way."
